

## **Being a Volunteer in Strasbourg**

In the last 2 months, I've had a spectacular, life-changing experience that broadened my worldview culturally, socially and academically, thanks to TREXEVs.

During this volunteering project, we were able to improve ourselves in many different ways including interactions with children and working in three different languages in a variety of fields. This experience not only enhanced our abilities as volunteers, but also introduced us to a completely different culture and its people.

This project would not be possible without our caring team and kind volunteer friends. Now, I want to share some of the activities we had the chance to offer

Here we attended a fashion show that was a charity event. The designer of the clothes donated the showcased pieces. After the show, many people from different cultures shared their folk dances including us.

Here we attended a volunteering fair representing AMSED. We did many creative activities with children.

During our time in Strasbourg, we also worked with different associations as animators to engage in creative activities with children.

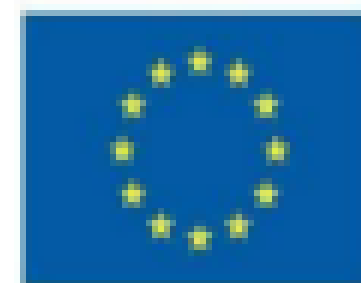

I'm so grateful to TREXEVS and AMSED for this opportunity and the unforgettable experience that will always remain with me.
